

A NEW PERFIN FOR THE SOCIETY

The change of name of the Society, as decided at the London meeting means, amongst other things, that the S.E.P.S. perforator is now out of date. Peter Day, however, possesses a perforator with the letters PS in a monogram, quite an attractive die, and he has very kindly offered the use of this to the Society. He will retain possession so that any requests for perforation of stamps should be addressed to him at P.O. BOX 29, BOGNOR REGIS, WEST SUSSEX, PO21 5UH. The S.E.P.S. perforator will be 'Mothballed' and will not be used in future. We are very grateful to Peter for this generous gesture.

Michael Rucklidge.
